

New York City Department of Transportation

NYCDOT Parking Meter Management Systems
Request for Expressions of Interest

PIN: 84118RFEI230

Addendum #1

February 26, 2018

Notice to Respondents

Attached hereto are the written responses to written questions received.

Written Responses to Written Questions Received

- Q1. Is it the intent of NYCDOT to continue to use the existing Parkeon PMMS back office system? Or will the City utilize multiple back office systems?
- A1. [The vendor should submit in their proposal as to how they envision the operational structure.](#)
- Q2. Does the City wish for the demonstration project to include the acceptance of the NYCWIN card? If so, will the City provide the necessary integration details?
- A2. [Not Applicable.](#)
- Q3. Can you please confirm that the length of the demonstration project is intended to be only 1 month?
- A3. [If DOT determines a demonstration project is warranted, it will last for only one month.](#)
- Q4. Would the demonstration vendors (other than Parkeon) be required to use pre-printed receipt paper?
- A4. [Option to pre-print paper size and dimensions are to be determined.](#)
- Q5. Is there a preferred size with regards to the color screen? And should this color screen be a touch screen?
- A5. [Refer to Questions and Response Guidelines for Respondents #9.](#)
- Q6. Does NYCDOT currently utilize any on-street sensors for vehicle detection?
- A6. [No.](#)
